

S3A-OLCI acquisition FR image 03/03/16 (from ESA)

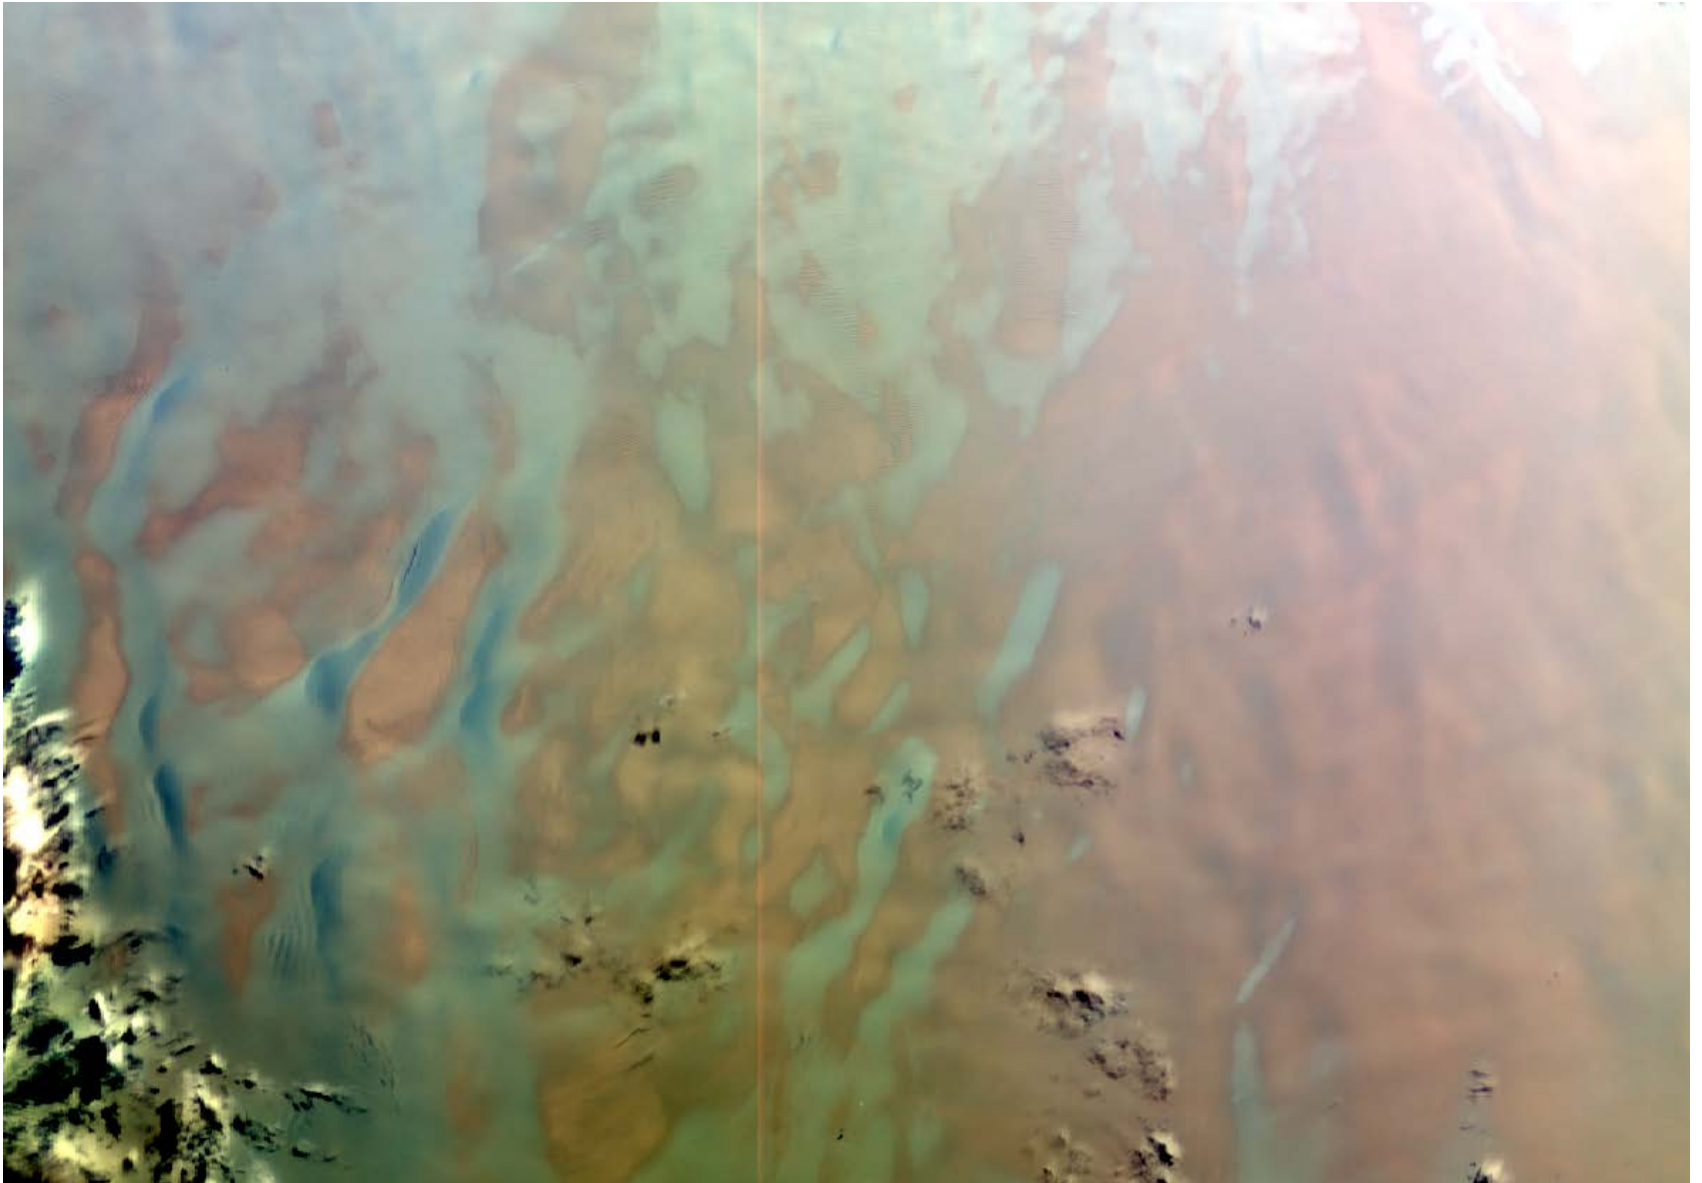

S3A-OLCI acquisition FR image 03/03/16 (from ESA)

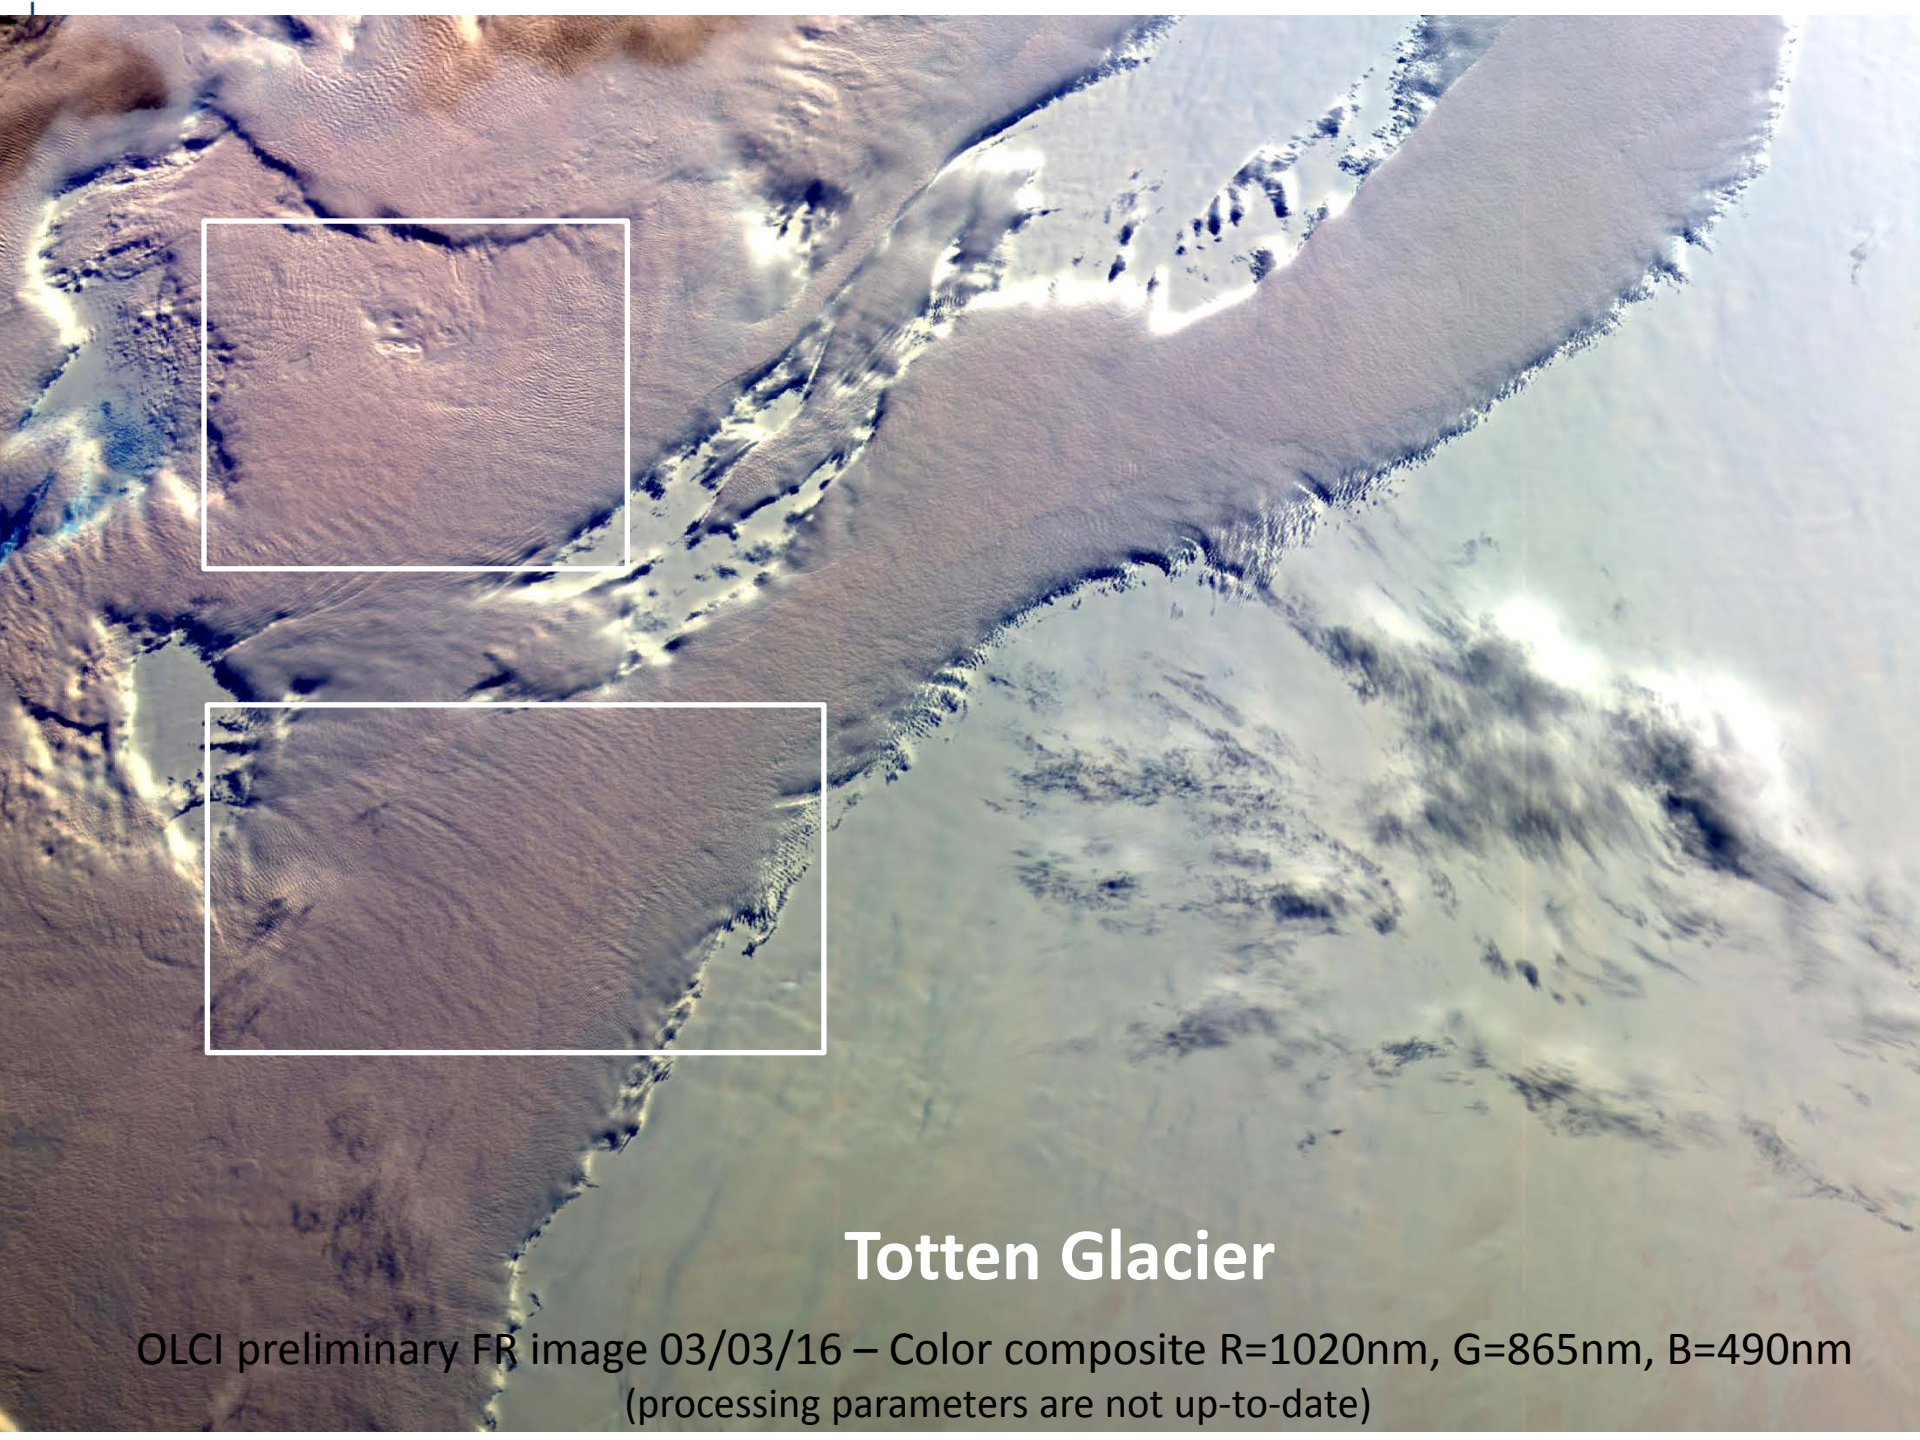

OLCI preliminary FR image 03/03/16 – B&W 1020nm  
(processing parameters are not up-to-date)

## Surface structures – spectral property

OLCI preliminary FR image 03/03/16 – Color composite R=1020nm, G=865nm, B=490nm  
(processing parameters are not up-to-date)

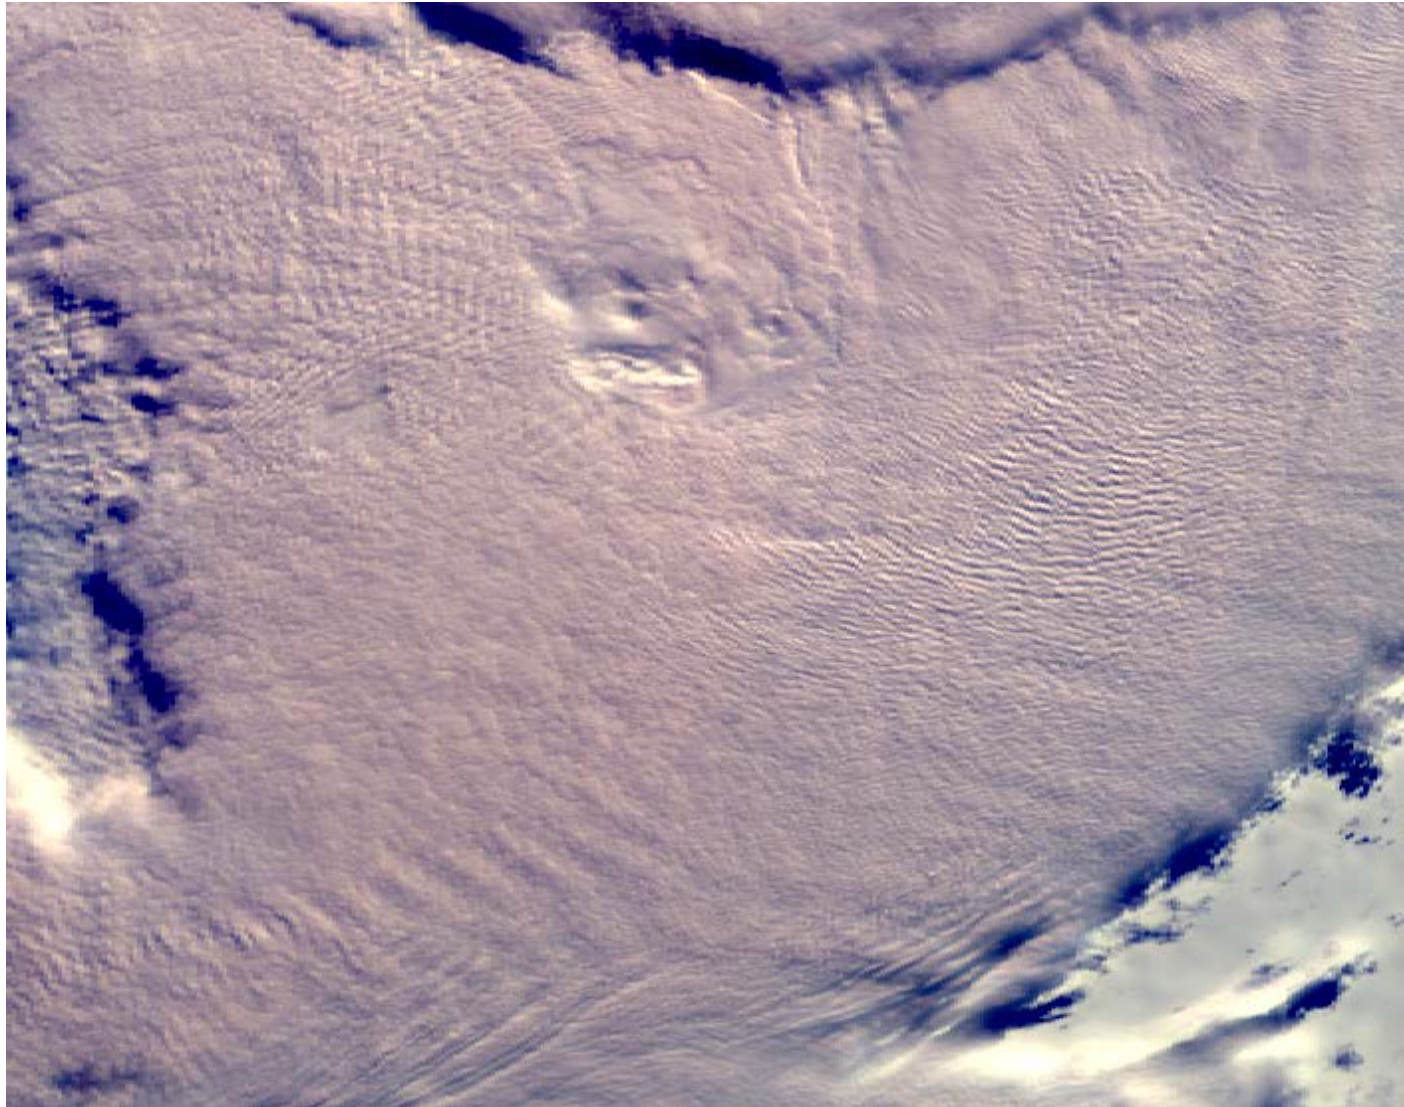

## Totten Glacier

OLCI preliminary FR image 03/03/16 – Color composite R=1020nm, G=865nm, B=490nm  
(processing parameters are not up-to-date)

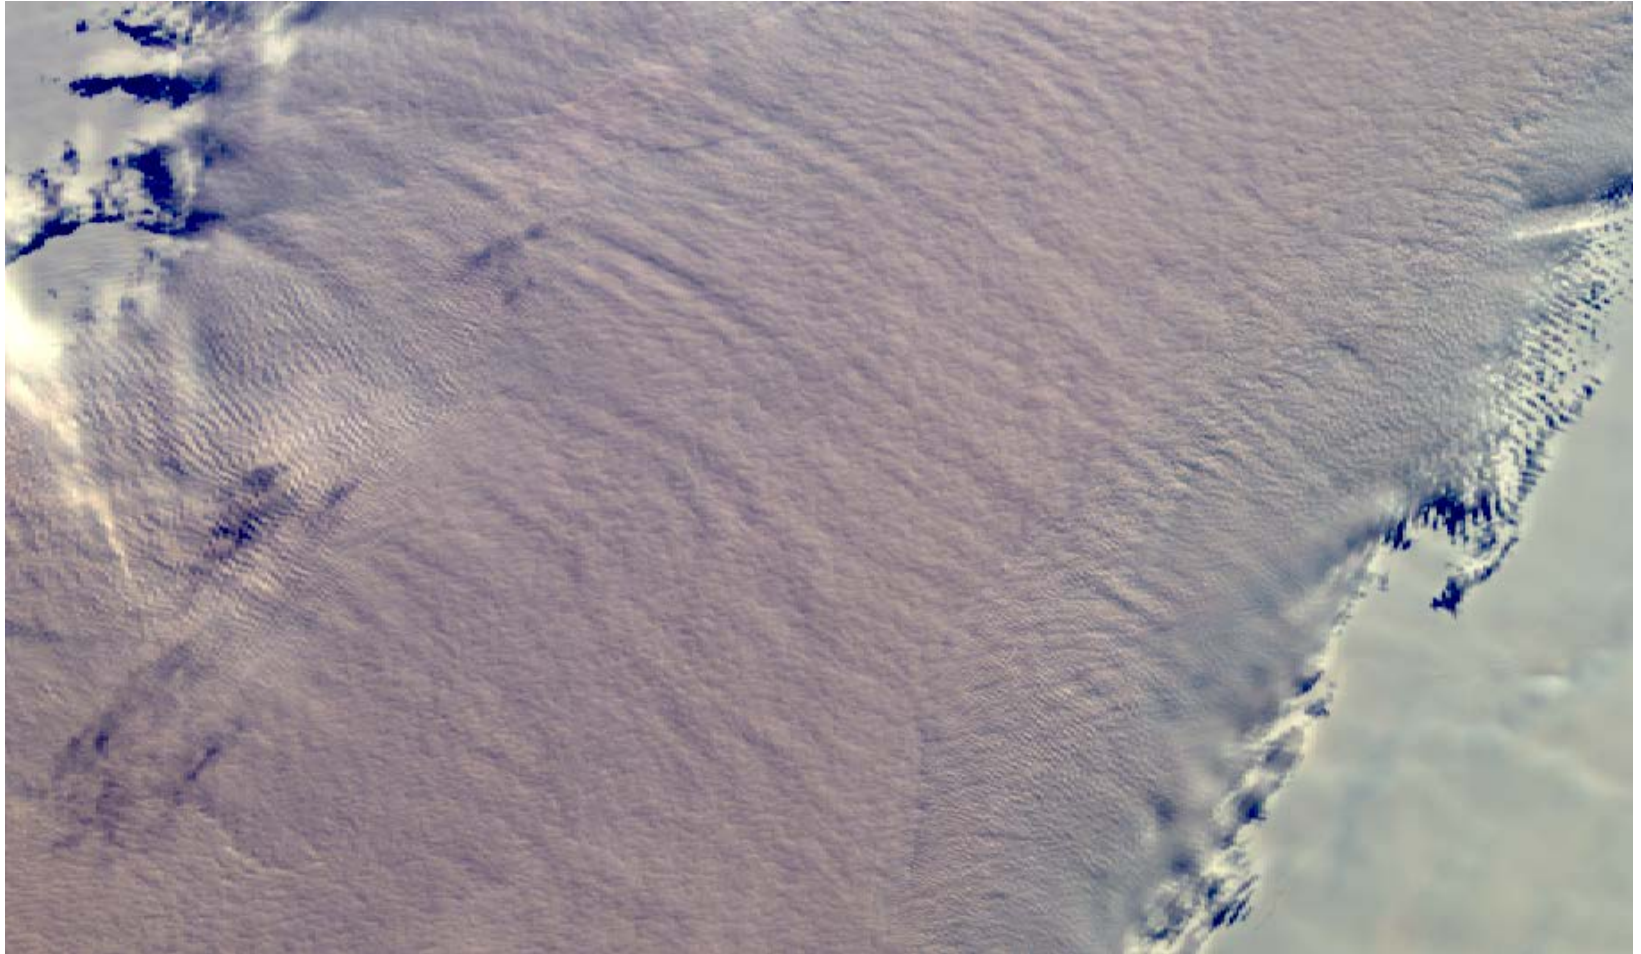

## Surface structures

OLCI preliminary FR image 03/03/16 – Color composite R=1020nm, G=865nm, B=490nm  
(processing parameters are not up-to-date)

# Surface structures

OLCI preliminary FR image 03/03/16 – Color composite R=1020nm, G=865nm, B=490nm  
(processing parameters are not up-to-date)

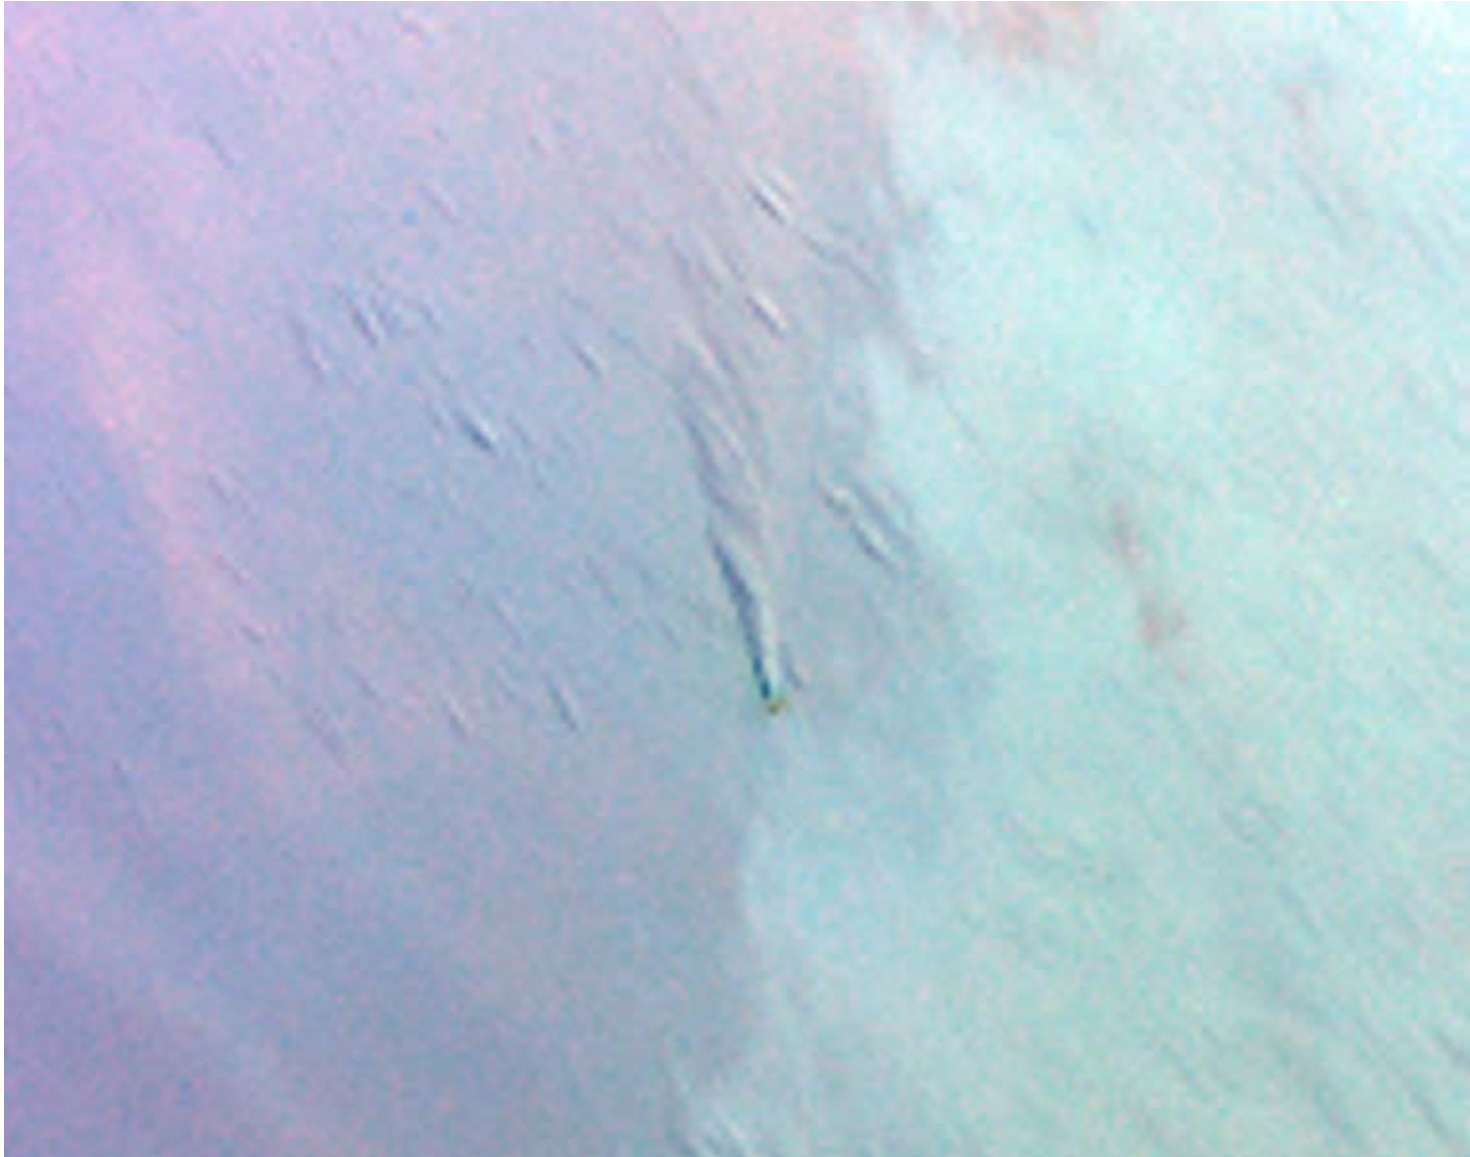

## Surface structures – sastruggis/megadunes

OLCI preliminary FR image 03/03/16 – Color composite R=1020nm, G=865nm, B=490nm  
(processing parameters are not up-to-date)

# Dome Concordia

OLCI preliminary FR image 03/03/16 – Color composite R=1020nm, G=865nm, B=490nm  
(processing parameters are not up-to-date)
