

# *The Dynamic Pacific*

## *Lenticular Card*

### ***The Dynamic Pacific: El Niño to La Niña***

A lenticular printing process was used in this product to illustrate the changing Pacific ocean as imaged by Topex/Poseidon's radar altimeter during 1997 and 1998.

When viewed from varying angles, four superimposed images show the equatorial Pacific as it shifted from warmer El Niño conditions to colder La Niña.

- Authors: JPL Outreach Team
- NASA/JPL
- Year: 2009
- Audience: General Public
- Medium: Lenticular Card
- Size / Format: 10.2 cm w x 15.2 cm h
- Language(s): English
